Licensed Tour Guides for
La Spezia - Lucca, Massa-Carrara &
their Provinces

IL TAU is composed only of **licensed tourist guides** operating in the provinces of La Spezia, Lucca and Massa - Carrara.

What unites us is the desire to share the love for our land, to present a polymorphic region - rich of history and art, local products and unexpected fascinations - and not to offer cold information, but deep **knowledge** and **passion for our land**.

Let us guide you to discover the historical **Lunigiana**, let be surprised by the **marble quarries** of **CARRARA**, enjoy the Ligurian Levante, from the **CINQUE TERRE** to the Val di Vara and **Portovenere**, and discover **LUCCA** and here province on a time travel along the ancient pilgrimage routes between Romanesque churches, medieval villages, castles and ancient forests.

NOT TOURISTS BUT TRAVELERS

WELCOME IN HOLIDAY

It is the beginning of your journey searching for true and lasting emotions, firsthand enjoyed experiences and slowly relished, with your private travel expert.

The tourist decides the destination of a trip, he imagine exotic places, he wants leave the work's monotony and he dreams the relax away from home, lying hours after hours on a pool edge or on a remote beach; you can see him on the ski slopes with fashionable sunglasses and a warm Rum punch-glass in his hands, while he took pictures of children close to famous monuments or in some oriental bazaar looking for souvenirs for the friends.

The traveler is more willing and, perhaps, more humble, he's interested by the journey, not by the destination, he likes the comparison with different cultural realities and to judge it, he prefers to take pictures with the eyes and mind, he seeks experience and emotions not necessarily pleasant and relaxing but certainly unique and different.

The traveler wants to follow the paths of large and small local memories and he gladly follows who's able to show him the scent of wild herbs or the typical, true kitchen, one who knows every single stone, proverb or overview of its region; he is happy to feel himself as a part of a territory which his guide proudly shows and reveals him, he knows that he understood he didn't just seen.

If you are a traveler, is just you we are expecting.

*With a passionate and endless work, lasted for centuries, the human beings have proved how it may be possible to improve the work of Nature, transforming an extreme and wild region into an authentic corner of heaven, whose fascination and harmony are hard to equal:
the Cinque Terre.*

The sea is just the frame of the incredible beauty of the steep slopes, of the daring and unexpected vineyards, of the romantic villages which suddenly appear, plunged into a still uncontaminated nature.

To walk along the innumerable footpaths, bordered with dry-stone-walls, climbing up steep hills facing the sea, is a unique experience to realize how man's genius and work were able to subduing also the most hostile environment.

If the art must be the imitation of Nature, those visiting the Cinque Terre should not be surprising to find there a lot of artistic and architectural treasures (from the marble rose windows, elegant and delicate as lace-works to the paintings of the XIV century made by local artists) and it is not surprising that famous poets drew from this territory their inspiration and that gastronomy and wines are in harmony with the excellence of this freestanding world, still holding out against modernity and rapallization.
